

Speed Reducer Factory

Company Introduction

Changzhou Niutang Dongfang Reducer Factory(wholly-owned subsidiary of Changzhou Speed Reducer Machine Co., Ltd). The company was founded in 1997 and has been committed to the R&D and manufacture of cycloid reducer gear reducer, environmental protection water treatment mixing equipment, precision rotary valve and rotary airlock feeders. Has a complete set of technical strength from R & D, design, manufacturing and advanced testing methods.It is one of the domestic manufacturers with the most specifications and varieties of similar products.In recent years, the company has continuously increased investment in R&D. At present, the company also has a special design team to increase the design and manufacture of reducer products.

The company has a full range of mixers, rotary valves, and discharge valves. There are hundreds of specifications, and the manufacturing materials are cast carbon, carbon steel, stainless steel, etc., which can meet the requirements of different industries, different media, and different working conditions.

Cycloidal gear reducer, helical gear reducer, rotary airlock valve and rotary feeders are widely used in grain and oil, food, feed, chemical, petrochemical, pharmaceutical, drying, environmental protection, dust removal and other industries.

The company adheres to the tenet of "honest management, quality first, customer satisfaction, continuous innovation". Provide users with the best products and comprehensive after-sales service.
