

CFV Filters

Radioactive iodine removal from nuclear submarine

UNPARALLELED PROTECTION!

CFV Filters - Standard Product Specifications

CFV Filter has stainless steel filter body with removal efficiency for Particulates, radioactive Iodine and Special Aerosols. CFV filter is an impregnated carbon media enriched filter with particulate removal efficiency of 99.7% (0.3 Micron)

Suracsh Filters is the licensed manufacturer of Air cleaning for INDIAN Defense Forces and Para Military Forces. With constant R&D and interaction with DRDO Suracsh Filters have made significant improvement in Air Cleaning Filter media using Activated carbon.

Specifications:

Air cleaning Capacity	360 m ³ /hr
Air resistance	70 mm of WC. Max.
Shelf Life	3 yrs. Min.

Typical Applications

- Nuclear Submarines

Features and Benefits

- Silver Impregnated Carbon with Silica Gel
